

BAHARI 525

Luxury performance for the blue horizon

Bahari
YACHTS

Smarter, safer sailing.

The Bahari promise

Bahari Yachts unites luxury with performance

They are crafted for sailors who want to experience the thrill of fast passages without compromising on comfort.

Whether circumnavigating or island-hopping, a Bahari yacht will carry you there in style, with precision craftsmanship, exceptional flow, and every detail carefully considered.

A name born of the sea

Swahili is a language shaped by centuries of Indian Ocean trade — a meeting point of Bantu, Arabic, Persian, and Portuguese influences. Among its words is Bahari, meaning ocean. It speaks of vastness, depth, and discovery — a perfect name for a yacht designed to roam the seas.

Bahari Yachts carry this spirit forward.

They embody freedom and innovation, delivering fast, luxurious blue water catamarans built for world cruising and comfortable living.

The Bahari 525.

Fast cruising, redefined

The Bahari 525 Sailing Catamaran is a fast cruising blue water yacht that seamlessly blends performance and luxury. She is not a stripped-out racer, nor a heavy, slow cruiser. Instead, she is crafted for sailors who value speed, comfort, and elegance in perfect harmony.

The Bahari 525 Sailing Catamaran

The Bahari 525 is the first of the Bahari range — a fast cruising blue water catamaran that brings together performance, comfort, and elegance. She is not a stripped-out racer, nor a heavy, slow cruiser, but a yacht created for sailors who want the best of both worlds: the exhilaration of speed with the reassurance of luxury.

Every detail has been shaped by designers and builders who have logged thousands of sea miles themselves. The result is a yacht that feels instinctive to sail and effortless to live aboard.

Interiors are laid out with a sailor's understanding of flow and ergonomics, ensuring natural movement between saloon, cockpit, galley, and helm. Semi-custom layouts allow each owner to choose

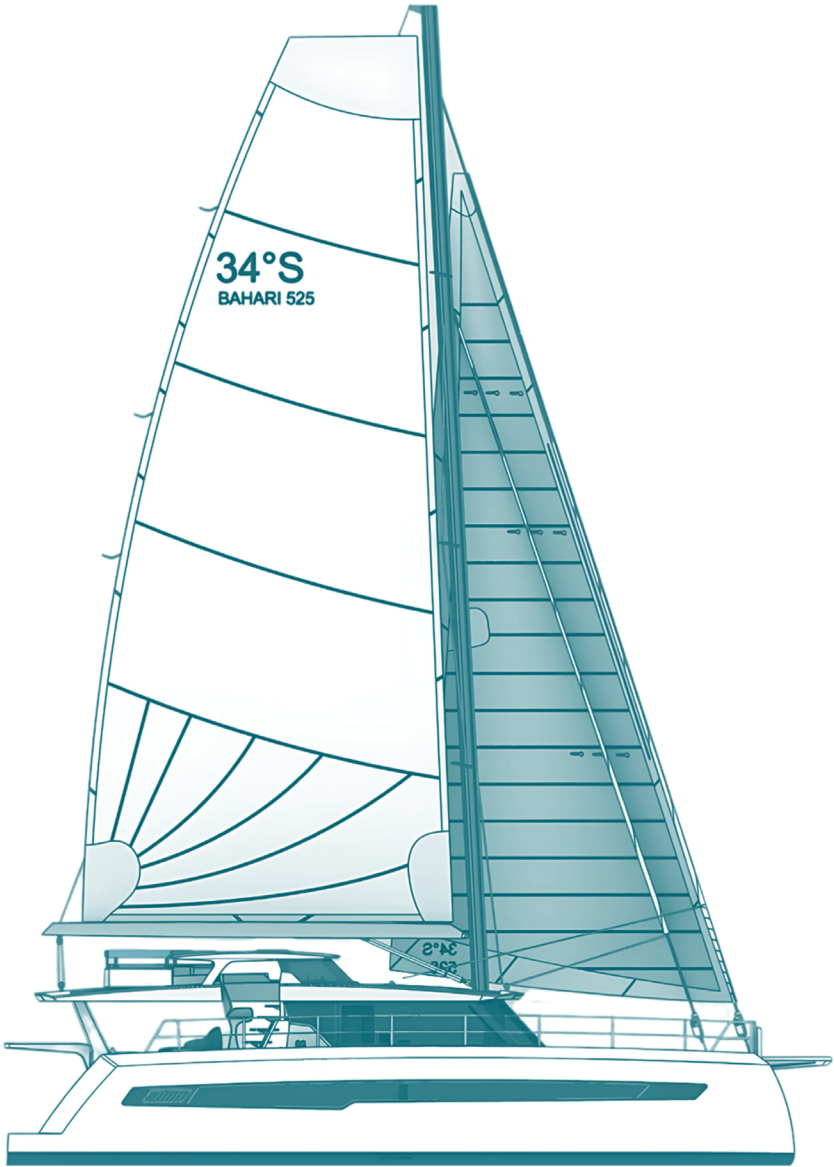

between a three-cabin or four-cabin configuration, while the option of a flybridge or no-flybridge version ensures the yacht reflects your own sailing style — whether sportier or more leisure-oriented.

Forward, the trampoline area transforms into a refined living space, complete with custom full-size mattresses and a dedicated awning for shade or stargazing. Throughout, finishes are precision-crafted and materials are carefully chosen, bringing together durability and beauty in every line.

The Bahari 525 is designed by sailors, built for sailors — a catamaran that makes the ocean feel like home.

The Bahari 525 Sailing Catamaran

Design Principle Dimensions		
	Metric	Imperial
Length Overall	16,90 m	55,446 ft
Length Waterline (LWL)	16 m	52,5 ft
Beam Overall	8,30 m	27,231 ft
Draft (Maximum)	0,90 m	2,953 ft
Freeboard @ Bow	2,16 m	7,096 ft
Lightship Displacement	17 500,00 kg	38 580,90 lbs
Engine (Diesel) Power X 2 with Yanmar	100 kW	80 Hp
Engine (Electric) Power X 2 with Integrel	15 kW	20 Hp
Fuel Tank Capacity	2 × 370 L = 740 L	195,4 gal
Water Tank Capacity	4 × 215 L = 860 L	227,1 gal
Sail Area – Main	103 m²	1 108,6 ft²
Sail Area – Genoa	68 m²	732 ft²
Sail Area – Stay Sail	47 m²	505 ft²
Sail Area – Code 0	134 m²	1 442 ft²
Sail Area – Gennaker	188 m²	2 023 ft²

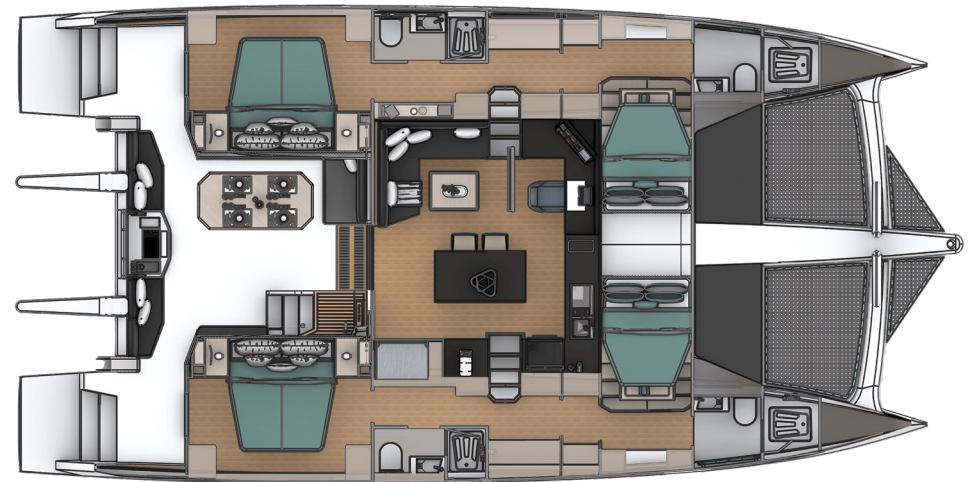

Semi-custom to your lifestyle

Choose between a three-cabin or four-cabin layout:

3-Cabin Layout

Three-cabin: a lavish owner's hull with a transverse berth aft, full ensuite, and flexible forward space. The guest hull offers two spacious ensuite cabins.

4-Cabin Layout

Four-cabin: mirrored hulls, each with fore and aft cabins, transverse queen-size berths, and private ensuites.

Flybridge or not

Bahari owners can configure the 525 to suit their sailing style.

- With flybridge: An elevated lounge and helm station create an extra outdoor space seating 8–10 guests, perfect for entertaining.
- Without flybridge: A sleeker profile and sportier sailing feel, ideal for those who prioritise pure sailing performance. Every Bahari is unique to its owner.

Spaces designed for living

Forward on the bow, the trampoline transforms into a full forward living area. A set of custom, full-size mattresses turns the space into a sun-drenched or shaded lounge, thanks to a specially designed awning. It's the perfect spot to gaze at the horizon, day or night.

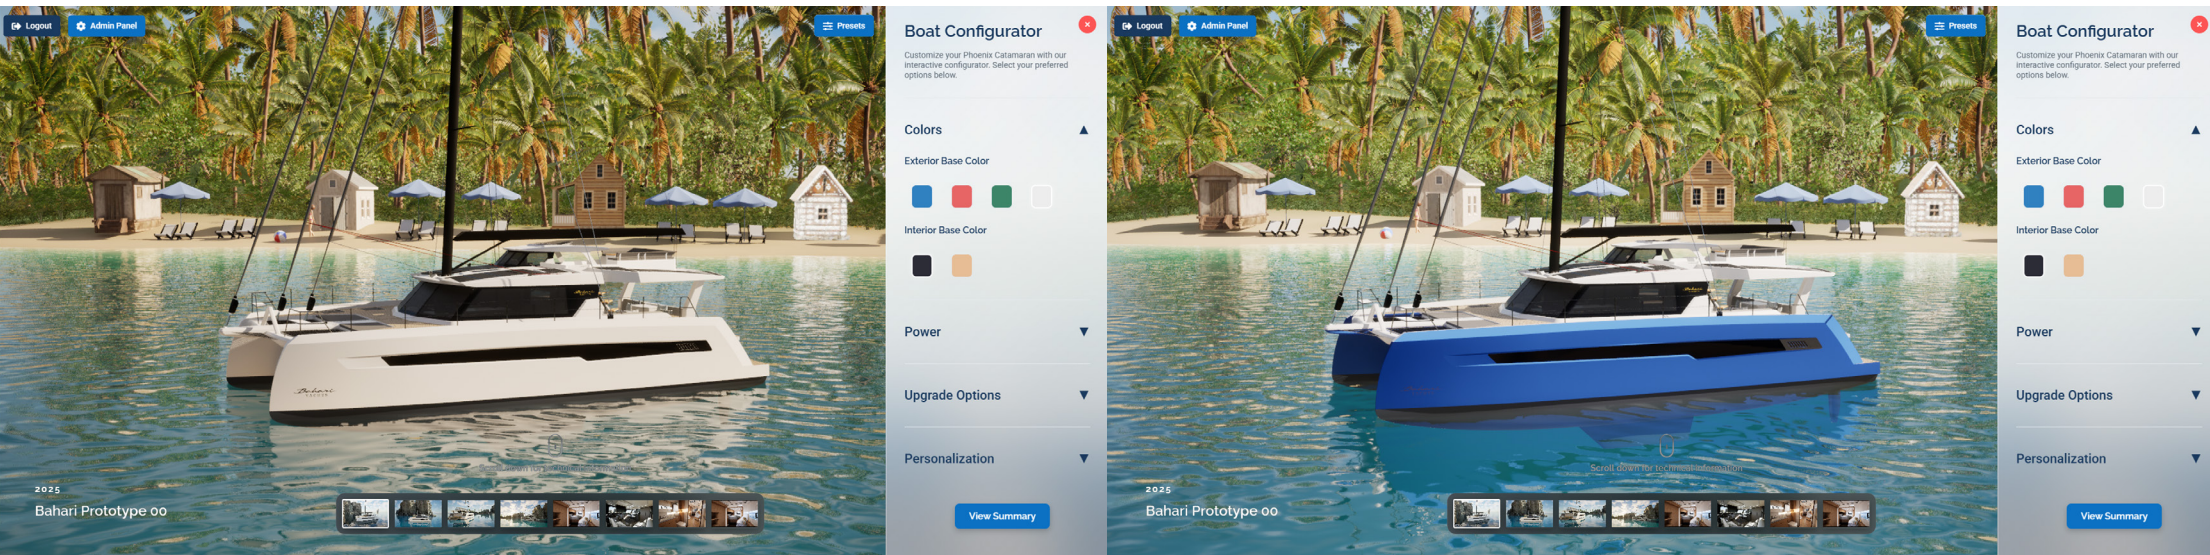

Ergonomics at heart

From the main cockpit to the saloon, galley, helm, and cabins, the Bahari 525 has been designed with flow and ergonomics at its heart. Movement is intuitive, spaces are open yet secure, and every surface, fitting, and finish has been selected for beauty, durability, and comfort.

The Bahari 525 reflects the real-world sailing experience of the Phoenix Marine Manufacturing team. Many have crossed oceans, sailed through storms, and lived aboard for extended periods - insights that shape every decision, from the yacht's systems to its sail plan. This is a catamaran designed by sailors, for sailors.

The technology.

Personalise your Bahari

Your Bahari, your way.

The Bahari Configurator allows you to personalise your yacht online. Explore layouts, colours, finishes, and options in photorealistic renders. Every choice updates live pricing, so you can see exactly how your yacht will look — and what it will cost.

When ready, your selections download straight into the yacht's pricing schedule, forming the foundation of your order.

Sailing Smarter

The Bahari 525 Sailing Catamaran captures the timeless joy of harnessing the wind, feeling the sea spray, and exploring distant shores. At the same time, she integrates cutting-edge smart yacht technology that makes sailing safer, easier, and more connected.

This is where nature meets technology: a yacht that sails beautifully while keeping you safe, connected, and fully in control.

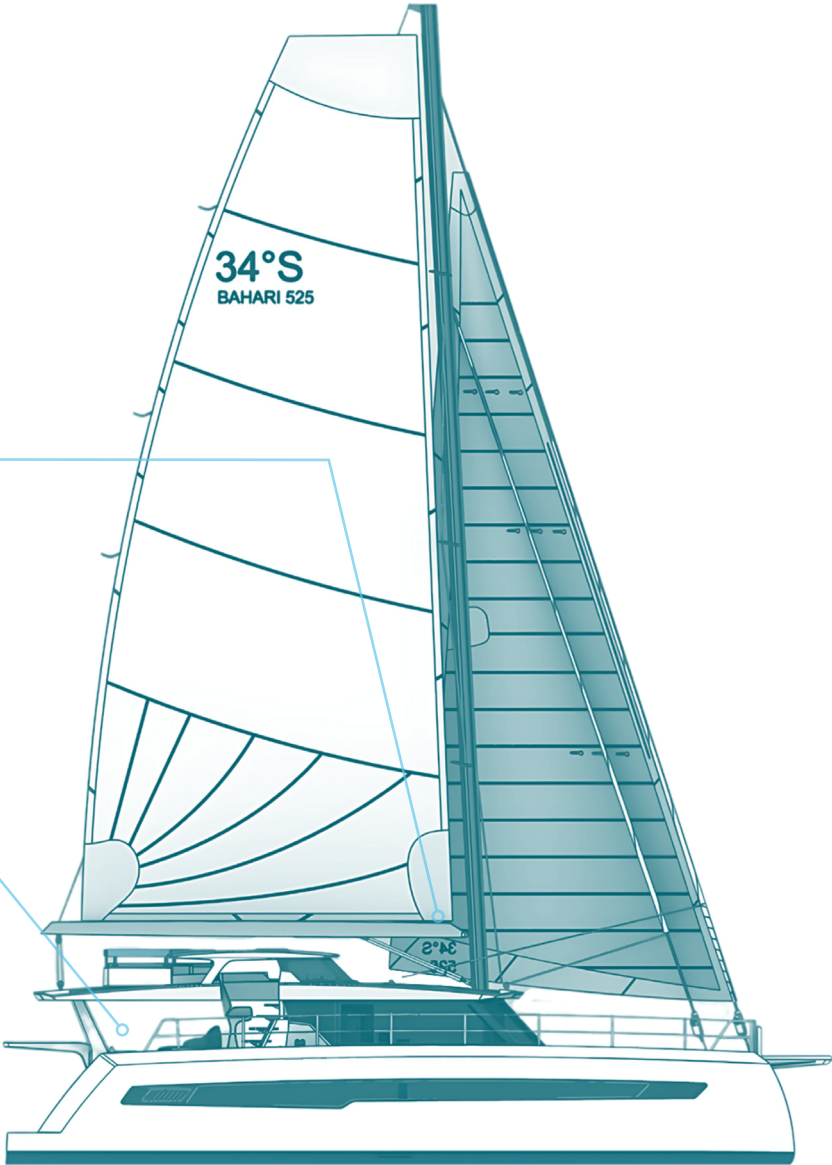

Rig & Sail Systems

- Load / strain sensors on rigging (Cyclops sensors)
- Smart-assisted furlers (foresails & boom)
- Electronic sail control (reefing, trimming)
- Rig diagnostics / tuning

Safety & Security

- Geo-fencing & anchor drag alerts
- Intrusion / theft detection
- Remote diagnostics & cloud reporting
- Emergency alert / distress signalling
- Fire / smoke / gas detection
- Man-overboard detection

Systems Monitoring

Engine & generator diagnostics
(RPM, temps, pressures, load)

Hydraulic system monitoring

Watermaker monitoring

Digital switching (lights, pumps, fans)

Environmental sensors
(temperature, humidity, leaks)

Ownership & Interface

Configurator & customisation interface

Telemetry & usage analytics

Predictive maintenance / AI diagnostics

Remote software updates

Shore team integration

Tanks & Fluids

Fuel level & flow monitoring

Fresh water level monitoring

Black water / grey water monitoring

Bilge level sensors & pump alerts

Comfort & Guest Experience

Remote climate control (HVAC)

Integrated lighting & mood control

Audio / entertainment integration

Smart blinds / electrochromic windows

Forward trampoline lounge with
shade awning

Helm / Navigation

GPS & AIS tracking

Predictive routing & weather integration

Digital navigation suite / chart plotters

Autohelm / smart-assisted autopilot

Helm-by-wire steering

Collision-avoidance / radar / sonar

Propulsion & Energy

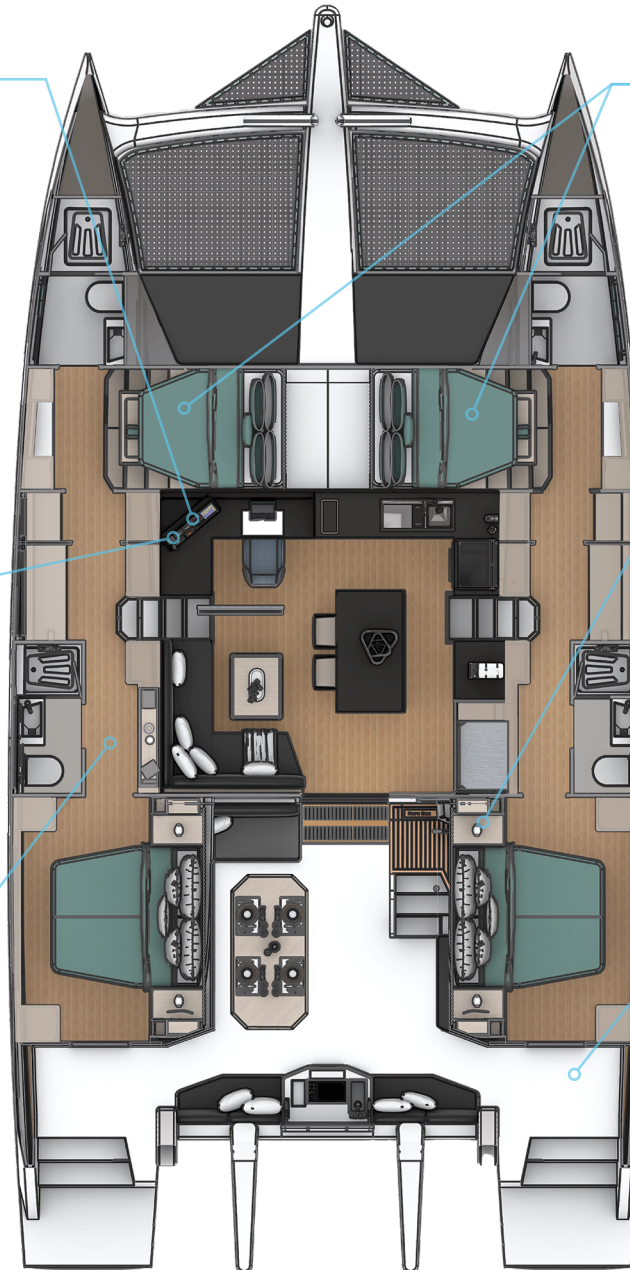

Hybrid propulsion / electric drive option

Solar energy input monitoring

Battery management system

Shore power / generator integration

Energy dashboard (real-time usage)

The family.

“At Phoenix Marine Manufacturing, our ethos is simple: build without compromise. Every yacht must reflect innovation, sustainability, and enduring quality. That’s our commitment to the sea, and to every Bahari owner.”

Clinton Johns, Founder & CEO

Built by Phoenix Marine Manufacturing

Bahari Yachts are proudly built by Phoenix Marine Manufacturing, based in Cape Town, South Africa — the world’s largest catamaran-building city. South Africa is the second-largest catamaran builder globally after France, and the leading builder of power catamarans.

Known as the Cape of Storms, Cape Town produces yachts that are trusted worldwide for their strength, safety, and seaworthiness. Phoenix Marine embodies this reputation, delivering yachts with uncompromising quality and precision.

From its in-house design studio, Studio 34 South, Phoenix designs not only yachts but advanced composite structures, bringing unmatched expertise to Bahari Yachts. Many of the team have sailed thousands of sea miles across oceans, charters, and circumnavigations, ensuring every design decision is informed by real-world sailing experience.

Recognition & Awards

Phoenix Marine Manufacturing has been recognised globally for innovation, craftsmanship, and sustainability.
